SQL Server · MySQL · MariaDB · PostgreSQL · MongoDB · Firebase

**IT Support & Infrastructure**

Active Directory · Windows Server · Microsoft 365 · Citrix · TeamViewer · AnyDesk

**Working knowledge**

C# · Java

## SUMMARY

Full-stack developer working in IT since 2016, having moved from end-user support into building web, mobile and desktop applications. I build cross-platform apps with **Flutter** and the **MERN** stack, extend **WinDev/WebDev** business applications, and automate processes with **n8n** (several dozen workflows built locally) and **LLMs**. 20+ projects delivered.

## PROFESSIONAL EXPERIENCE

### Flutter Developer

**Freelance · GDH Management & Consulting**

Aug 2024 – Present

Remote, Tunisia

- Designing and building **Gaztrack Pro**, a web and mobile app for managing gas cylinder distribution, for GDH Management & Consulting.
- Implementing real-time tracking and inventory management with a seamless cross-platform UI (Flutter/Dart).

### Full-Stack Developer

**Freelance**

Sep 2020 – Present

Remote, Tunisia

- Build custom web and desktop applications for small and mid-sized businesses with WinDev/WebDev and the MERN stack.
- Maintain and modernize clients' legacy business applications and integrate third-party APIs.
- Gather client requirements, turn them into specifications, and run code reviews.

### Developer & Technical Assistant

**Business News Consulting**

Sep 2018 – Jun 2022

Hammam-Lif, Tunisia

- Built and rolled out the **Balance Management** application for BONNA Tunisia, managing industrial weighing scales and integrated with the central ERP.
- Maintained and enhanced in-house payroll, accounting and sales management applications (GestComprod, Immo).
- Handled hardware and software maintenance, plus end-user support and training.

### Back-Office IT Support Technician

**YM Call Center**

Nov 2016 – Jun 2018

Tunis, Tunisia

- Deployed, installed and configured the call center's software.
- Owned escalated incidents (analysis, resolution, follow-up) to keep agents' workstations running.
- Documented configurations and resolutions in the knowledge base; trained team members.

B1 — AMIDEAST certified

## PROFESSIONAL EXPERIENCE (CONT.)

### Help Desk Analyst

Ivocall Center

Feb 2016 – Nov 2016
Hammam-Lif, Tunisia

- Handled user calls and troubleshot workstations remotely via Citrix and TeamViewer.
- Configured and troubleshot Outlook; created and managed Active Directory accounts.

## KEY PROJECTS

### Mind Screen ↗

ZeusCom (startup)

mind-screen.com · Android · Web · iOS coming soon

AI-driven mental health screening tool built on the PHQ-9 and GAD-7 clinical questionnaires. An AI voice assistant runs structured assessments, interprets the results and routes users to the appropriate care pathway.

Flutter · Dart · Firebase · AI voice · LLM orchestration

### Gaztrack Pro ↗

GDH Management & Consulting

Web · Mobile

Platform that digitizes gas distribution, replacing paper-based tracking with real-time digital workflows, from drivers' mobile sales capture to management's inventory dashboards.

Flutter · Dart · Firebase · Google Maps API

### Balance Management System

BONNA Tunisia

Desktop

Industrial application for managing weighing scales, integrated with the company's central ERP system.

WinDev · SQL Server · Serial communication
